Re: Scientific Chemical Processing Site
Carlstadt, NJ

Dear Ms. Johnson and Ms. Feldstein:

As the Borough attorney in Carlstadt, I am attempting to discern the status of the clean up of the above-captioned site located within the Borough. It is my understanding that the above ground clean up and remediation as directed by your office has been completed and the cost of this clean up to the owner of said property was in excess of \$1,697,000.

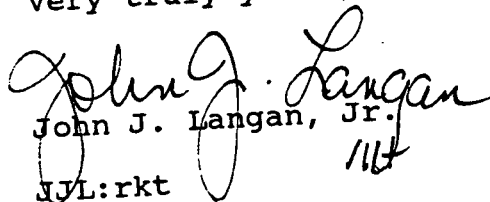

It is further my understanding that a remedial investigation and feasibility study has been prepared regarding the balance of the on-site clean up. I would therefore appreciate any and all reports which have been prepared by your department as to same, together with the estimates of the cost of the clean up, since the borough has been apprised that this will cost in excess of \$18 million with the possibility of being as high as \$100 million.
